SUMMARY

With over a decade of experience as a web application developer, I am adept at end-to-end development, from front-end Angular and Vue.js to Node.js for server-side execution. My biggest career achievement includes significantly enhancing a project management tool, advancing both user experience and team productivity.

EXPERIENCE

Lead Front-End Developer

TechInnovate Solutions

📅 01/2019 - 02/2023   📍 Philadelphia, PA

- Led a team of 5 developers in creating an advanced project management tool, increasing team productivity by 30%.
- Spearheaded the integration of RESTful APIs in web applications, enabling real-time data synchronization across platforms.
- Optimized existing web applications, resulting in a 40% reduction in load times and a 25% increase in user engagement.
- Pioneered the use of Angular in our projects, leading to a more efficient development cycle and a reduction in code redundancy.
- Collaborated closely with project managers to align technical solutions with business objectives, contributing to an annual revenue increase of 15%.
- Implemented comprehensive unit testing protocols that decreased bug occurrences by 50%, enhancing application stability.

Senior Web Developer

BitCrafter Interactive

📅 06/2015 - 12/2018   📍 Philadelphia, PA

- Developed custom application workflows, improving operational efficiency by 20% for our key clients.
- Authored high-quality HTML, CSS, and JavaScript code for dynamic web applications used by over 10,000 users.
- Initiated a peer code review process that improved code quality and reduced post-deployment errors by 35%.
- Managed JSON data transfer within applications, ensuring accurate and efficient data handling.
- Served as a technical advisor for integrating Node.js into existing projects, boosting back-end performance.

Web Application Developer

InnoviTech Digital

📅 02/2012 - 05/2015   📍 Philadelphia, PA

- Developed a variety of business workflows that streamlined client operations by 25%.
- Enhanced application security protocols, reducing vulnerability exposure by 60%.
- Coded new features for high-traffic web applications, directly impacting a user base growth of 15%.
- Participated in client briefing sessions to clearly understand project scope and deliver accurate technical solutions.

EDUCATION

Master of Science in Computer Science

Carnegie Mellon University

📅 01/2010 - 01/2012   📍 Pittsburgh, PA

Bachelor of Science in Software Engineering

Drexel University

📅 01/2006 - 01/2010   📍 Philadelphia, PA

PROJECTS

Open Source Project Management Tool

Contributed to the development of an open-source project management tool designed for small teams. View more at github.com/hjackson/projects/pm-tool

Customizable Data Dashboard

Developed a flexible data dashboard web application to visualize and analyze performance metrics. Explore the project at github.com/hjackson/projects/data-dashboard

KEY ACHIEVEMENTS

✔️ **QuickBase Solutions Provider Award**
Innovated QuickBase cloud integrations for SMEs, resulting in 500% ROI for our clients.

⚡ **Team Leader of the Year**
Recognized as team leader of the year for leading critical projects and achieving top customer satisfaction scores.

🧠 **Top Performance in Web Optimization**
Improved a client's web application performance by 40%, directly impacting user retention rates.

🏹 **Security Protocol Overhaul**
Overhauled security protocols for a major application, significantly reducing the risk of data breaches.

SKILLS

HTML	CSS	JavaScript	Angular

Vue.js	Node.js
